7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Reduction in stormwater from county maintained facilities and infrastructure.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Warren County DPW and Warren County SWCD identified an area of direct runoff discharge that affected the Glen Lake Outlet, upstream of Dream Lake on Bay Road in the Town of Queensbury. The runoff is generated within the Ms4 boundary, but flows downhill to the stream, which is just outside of the Ms4 boundary. Since the proximity was close to the boundary and the stormwater initially was generated within the Ms4 area, the SWCD and DPW determined the it was a problem that should be undertaken for water quality improvement. The project consisted of the

In the late summer/fall of 2021 WC Facilities Dept., Warren County SWCD and Southeast Chapter of the Audobon Society met to look at the property around the municipal center and DSS building to see if any landscape management changes could be made to improve the site by reducing maintenance activities. The District developed a goal derived plan that was reviewed by WC Facilities that assist with reducing impacts to the landscaping, enhances and encourages native
