*SNAP households containing any aged or disabled members, and households that pay out-of-pocket dependent care costs, that pass the 200% FPL gross income test and do not contain a SNAP-sanctioned or an Intentional Program Violation (IPV) member are categorically eligible for SNAP, meaning they are not subject to a resource test. Such households of one or two persons are, minimally, eligible to receive the \$24 minimum allotment.

**Elderly (60 years of age or older) or household members (and their spouses) who are incapable of buying food or preparing meals due to a disability may apply as a separate food unit if the income of the others with whom the individual resides (excluding the income of the elderly and disabled individual and his/her spouse) do not exceed 165% FPL.

***SNAP households with **earned** income that do **not** contain a household member that is sanctioned or disqualified for an IPV, failure to comply with work rules or voluntary job quit, that do **not** contain an aged or disabled member, and that do **not** pay out-of-pocket dependent care costs, must pass the 150% FPL gross income test.

It should be noted that, per USDA rules, all households of three or more people, after the applicable *Gross* and/or *Net Income Test*(s) are passed, must have their monthly net income calculate out to a positive SNAP allotment to be eligible to receive benefits.
