## 2026 LOCAL CONTRIBUTION LIMITS

Please remember that these limits are for the entire election cycle.

**The person contributing, as well as the person receiving it, are responsible to ensure that the limits are not exceeded. The contribution limit for family members is an aggregate limit from all the candidate's family members (defined as a child, parent, grandparent, brother and sister and the spouses of those persons.)**

### Basis for Calculation

Limits are calculated pursuant to New York Election Law §14-114, using the highest party or total enrollment figure from the current general election year or any of the preceding four general election years.  
Primary election limits are based on the highest enrolled party registration in the district (× \$0.05 per enrolled voter; minimum \$1,000 individual / \$1,250 family).  
General election limits are based on the highest total registered voters in the jurisdiction (× \$0.05 individual; × \$0.25 family aggregate).  
*Note: Individual limits that fall below the statutory minimum are set to \$1,000. Limits are subject to change based on updated enrollment figures.*
