

Plot Plan

ST. ALPHONSUS CEMETERY Fall 1989 and Spring 1990

Roman Numerals show the number of the sixty-five rows of grave stones. In each case, the roman numeral shows the start of numbering (in arabec numerals) for that row. Along the east fence, there are nine (9) stones for graves which are not really a part of the cemetery. These are listed at the start of the list of rows but are also included in the alphabetized list of names which shows (by code) the location of each stone.
